

# HARSHAD EKAWADE

Experienced Flutter Developer | Web Developer | Server Admin

+91-766-669-2659 | harshadekawade@gmail.com | Andheri (E), Mumbai, Maharashtra, India

## Summary

Experienced mobile and web developer with **3.5+** years of expertise in front-end and back-end technologies. Skilled in delivering scalable solutions and driven by a passion for innovation and continuous learning, ready to tackle new challenges in the tech industry.

## Experience

### Innovins Technologies

Flutter Developer

Andheri, Mumbai, Maharashtra, India

May 2024 – Present

- Designed and implemented user interfaces in Flutter, adhering to MVC and MVVM patterns to ensure scalable and maintainable code.
- Built and maintained 5+ mobile applications using Flutter, delivering high-quality and efficient solutions.
- Worked closely with the design and backend teams to ensure a cohesive and functional app.

### MeraSEO

Chief Technology Officer

Andheri, Mumbai, Maharashtra, India

March 2022 – Feb 2024

- Experienced software developer with expertise in building and maintaining 7+ mobile applications using Flutter and developing 10+ dynamic websites utilizing PHP, MySQL, HTML, CSS, and JavaScript.
- Proficient in Linux server administration, including the manual setup of LAMP stacks, PhpMyAdmin, and SSL certificates, with a strong ability to troubleshoot and resolve server issues efficiently.
- I have successfully deployed a WebSocket server using Node.js on Heroku to enable real-time live auction bidding functionality.
- I worked with various hosting providers, such as Hostinger, Bigrock, GoDaddy, enabling me to manage website hosting, database configurations, and SSL integrations seamlessly.

### Rohin Solutions LLP

Junior Associate

Kankavli, Maharashtra, India

June 2021 – March 2022

- Joined as the first team member, shaping the company's tech direction and success.
- Developed native Android applications using Java and Flutter mobile apps.
- Designed and implemented RESTful APIs using Python Flask, integrated with PostgreSQL databases to ensure seamless communication between front-end and back-end systems.
- Implemented Docker for streamlined deployment and improved scalability.
- Utilized Git for version control and Jira for project management to ensure efficient development processes.
